

Nov 1-10:12 AM

Nov 1-10:15 AM

Death → All organs cease to function properly.

"Biochemical processes."

→ HEAT
(O₂ + other gases)

The diagram shows the word "Biochemical processes" enclosed in an oval. Two arrows originate from the bottom of this oval: one points to the word "HEAT" which is also enclosed in a red oval, and the other points to the text "(O₂ + other gases)".

Nov 1-10:27 AM

After Death → No more heat being produced.
Body cools → ALGOR mortis

RIGOR mortis → body stiffens

LIVOR mortis → "blood settles"

The notes describe three post-mortem changes. "ALGOR mortis" is noted as occurring when the body cools after death, with no more heat produced. "RIGOR mortis" is described as the body stiffening. "LIVOR mortis" is described as "blood settling". Each term is enclosed in a dashed pink box.
